VIII. Addendum I, Paragraph I. Definition Of Recovery, Wellness, and Discovery and Rehabilitative Mental Health Services is hereby added and reads as follows:

I. Definition Of Recovery, Wellness, and Discovery and Rehabilitative Mental Health Services

Mental Health Recovery, Wellness, and Discovery is an approach to helping the individual to live a healthy, satisfying, and hopeful life despite limitations and/or continuing effects caused by his or her mental illness. "Rehabilitation" is a strength-based approach to skills development that focuses on maximizing an individual's functioning. Services will support the individual in accomplishing his/her desired results. Program staffing should be multi-disciplinary and reflect the cultural, linguistic, ethnic, age, gender, sexual orientation and other social characteristics of the community which the program serves. Families, caregivers, human service agency personnel and other significant support persons should be encouraged to participate in the planning and implementation process in responding to the individual's needs and desires, and in facilitating the individual's choices and responsibilities. Programs may be designed to use both licensed and non-licensed personnel who are experienced in providing mental health services.

It is believed that all clients can recover, even if that recovery is not complete. The Recovery, Wellness, and Discovery approach involves collaborating with the client to facilitate hope and empowerment, with the goals of counteracting internal and external "stigma," improving self-esteem, encouraging client self-management of his/her life including making his/her own choices and decisions, re-integrating the client back into his/her community as a contributing member, and achieving a satisfying and fulfilling life.

- IX. All other terms, conditions and covenants in the basic agreement remain in full force and effect.
